This program contains an unofficial list of candidates for graduation on May 14, 2016, and a list of graduates who received degrees in August 2015 and December 2015.

The list of May graduates is as accurate as possible. However, because of printing deadlines, names of some degree recipients may not appear, while names of degree candidates may appear even though they have not completed their degree requirements.

The University’s official registry for conferral of degrees is the Office of the Registrar, 901 West Illinois Street, Urbana, IL 61801.

Produced by Office of the Chancellor in collaboration with the Office of the Registrar.

The University of Illinois is an equal opportunity, affirmative action institution. Printed on recycled paper with soy ink.
TO OUR GUESTS

Commencement is the culmination of the academic year. Today we recognize our graduates’ accomplishments. We hope this ceremony is an important and meaningful occasion for students, their families, and the faculty and staff. We offer you the following guidelines to enhance the dignity and ensure the smooth flow of the ceremony.

Guests are asked to withhold applause during the presentation and hooding of doctoral candidates. Please hold such applause until all candidates have returned to their seats.

As a service to parents with small children who may become restless during the two-and-a-half hour event, the ceremony will be broadcast in the West Main Hall of the stadium.

Graduates and guests are asked to please remain seated until the end of the recessional.

Sign language interpretation is provided on stage and in front of Section 127. Guests who are hearing impaired may sit in Section 127 of Memorial Stadium so that they may better view the interpreters. Graduates who are hearing impaired should sit as close to the stage as possible within their designated section on the field. Please see an usher if you need assistance.

For your convenience, a first-aid station is located at Gate 24 on the south end of the stadium.

In the event of inclement weather, guests will be alerted of changes to the program or evacuation plans.

SINGING OF “THE STAR-SPANGLED BANNER”

BY THE AUDIENCE

O say can you see by the dawn’s early light,
What so proudly we hail’d at the twilight’s last gleaming?
Whose broad stripes and bright stars thro’ the perilous fight,
O’er the ramparts we watch’d were so gallantly streaming!
And the rocket’s red glare, the bombs bursting in air,
Gave proof thro’ the night that our flag was still there.
O say does that Star-Spangled Banner yet wave,
O’er the land of the free and the home of the brave?

BEST WISHES TO THE CLASS OF 2016!

On behalf of the Board of Trustees and the almost 13 million residents of our great state whose interests we represent, I congratulate you, graduates of the Class of 2016.

I hope you are as proud and happy to be here today, on the Urbana-Champaign campus, as I am — proud to be an alumnus of our most noble and exemplary institution.

Your Illinois education has provided you with a strong foundation upon which to realize your goals. No matter what you do and where you go, that education will help you achieve your dreams.

Not only does the University of Illinois provide unparalleled, high-quality education, it also is a powerful engine of innovation and excellence that benefits both our citizens and our economy. And, in these days of ever-increasing globalization, our university’s efforts benefit, not just Illinois, but people and institutions around the world.

Today I am pleased to welcome you to one of the largest alumni associations in the world: alumni who lead by example with ingenuity, compassion and hard work, strong Illinois values.

Whether you stay in our wonderful state or go elsewhere, you’ll always carry a piece of the University of Illinois in your heart. I urge you, in all you do, to promote, protect, and preserve our grand legacy of learning and labor.

May you share the pride I have in our university and may you spread our tradition of Illinois excellence wherever your journey might take you.

Edward L. McMillan
Chair of the Board of Trustees
CONGRATULATIONS, CLASS OF 2016!

Today is truly a milestone and I hope you savor every moment. Your years on this great campus have unlocked the doors to your dreams, uniting your passion with world-class faculty and programs to nurture talents that will lift your careers, your families and your communities.

Tomorrow, you head off into new, less familiar waters, but what you have learned here has given you a powerful engine for the next leg of your life’s journey.

The compass that will guide your success is the same one that brought you here today. As Illinois favorite son and two-time presidential nominee Adlai Stevenson once told graduates: “When you leave here, don’t forget why you came.” Your ambitions and commitment – fueled by the skills you fostered here – will steer you to the future you imagined.

On behalf of the entire University of Illinois family, it is an honor to celebrate you, joined by the proud family and friends who have supported you along the way.

Enjoy your day and come back often. Like the lessons you learned here, your bond with the University of Illinois lasts a lifetime.

Timothy L. Killeen
President
CONGRATULATIONS TO ALL OF OUR
2016 GRADUATES!

If we can ever pick one single day that represents the spirit, mission and the history of the University of Illinois at Urbana-Champaign, it could only be Commencement. Your achievements, accomplishments and efforts here have been impressive. You picked a rigorous academic path when you chose to come to Illinois. You met every challenge and the degree you receive today is not given, but earned. All of the faculty and staff here at Illinois are proud and excited to be part of your celebration.

But I also want to recognize all of those who helped guide this new class of graduates along the way. This is a journey that started long before these women and men came to Illinois. Congratulations to the family, friends and mentors who stood behind your loved ones all along the way. This is your celebration as well.

We should also thank those in the extended Illinois family who have supported these graduates with their gifts to campus scholarship and fellowship programs. These investments in human potential make the Illinois student experience possible for thousands of our students every year. We all owe these alumni and friends our thanks and I sincerely hope that spirit of generosity will be carried forward by this class for those who follow in your footsteps.

I don’t know where your path will lead after Illinois. But I do ask that you continue to show the integrity, commitment and drive that marked your time on the campus throughout your careers and lives. You have been good neighbors, active citizens and leaders in this community. I hope that you continue this engagement and that you will always use your skills and your knowledge to make your world a better one.

We placed high expectations on you as students here. They don’t end with Commencement. They grow. But you are joining a global network of alumni and friends who will ensure that you never have to face your challenges alone. You are a member of the Illinois family. I hope you take advantage of these connections and that you remain an advocate and supporter of this university.

Today, you join a legacy that began here nearly 150 years ago with 77 students and the simple idea that education was the most transformative power on earth.

That legacy is in very good hands with all of you today.

Congratulations!

Barbara J. Wilson
Interim Chancellor
Jeff Huber is a 1989 graduate of the University of Illinois at Urbana-Champaign, earning a bachelor of science in computer engineering and a master’s degree from Harvard University.

Huber is the CEO of Grail, a company that builds on “ultradeep genome sequencing” technology, leading-edge computing, bioinformatics and machine learning to create unprecedented scientific understanding of cancer biology. The company was formed with a more than $100 million investment by Microsoft founder Bill Gates, Amazon founder Jeff Bezos, Illumina (the leader in genome sequencing), ARCH Ventures, Google Ventures and Sutter Hill Ventures.

Huber joined the company in memory of his wife, Laura, who died of cancer after a late diagnosis. Grail’s new test uses a technique called “liquid biopsy,” which scans blood for traces of cancer DNA and then indicates that a tumor is forming – even before the doctor or patient have detected it. By detecting cancer early, at stage 1 or stage 2, 80 to 90 percent of cancers can be cured with current treatments.

Prior to joining Grail, Huber was an engineer and senior executive at Google from 2003-16. At Google, he played leadership roles in developing and improving landmark products such as Google Maps and Gmail. Huber also led technology development for Google Ads, which transformed the company from a $1 billion business to a $50 billion business. He also worked at the intersection of life sciences and computing at Google[x].

Huber previously was vice president of architecture and systems development at eBay and senior vice president of engineering at Excite@Home, where he led consumer product and infrastructure development. Huber is a member of the boards of directors of Electronic Arts and The Exploratorium, and a former board member of Illumina.

RONALD JOHN ADRIAN
Honorary Degree of Doctor of Engineering

Ronald John Adrian, teacher, scholar, innovator. Your career has focused on understanding the three-dimensional space-time structure of turbulent flows and the mechanisms underlying their formation, evolution, and velocity in a variety of flows. Because of your achievements in this area, your peers consider you one of the most important fluid mechanicians of the last fifty years.

You were a key developer of an experimental technique called laser Doppler velocimetry, and you were the developer of the concept, hardware, methodology and software analysis approach of particle image velocimetry (PIV). PIV has revolutionized the field of fluid mechanics and was critical in a number of important applications, including aerodynamics, understanding flow in large blood vessels, and estimating the flow rate in the Deepwater Horizon blowout. Recently you have made profound contributions in microfluidics. You were the first to adapt PIV to microfluidics, and the first to perform detailed measurements of velocity fields and chemical mixing at this scale.

Your scholarship has been recognized with the most prominent honors in your field, including the American Physical Society Fluid Dynamics Prize and the American Society of Mechanical Engineers Fluids Engineering Award, and your election in the National Academy of Engineering. The many students and researchers you have mentored have become leaders in academia, important governmental laboratories, and leading industrial laboratories.

In recognition of the excellence of your scholarship, your seminal advances in fluid mechanics, and your mentorship of young scientists, and upon the recommendation of the Senate of the Urbana-Champaign campus, it is a great honor to present you to the President of the University for the honorary degree of Doctor of Engineering.

N.R. NARAYANA MURTHY
Honorary Degree of Doctor of Science

N.R. Narayana Murthy, engineer, business leader, philanthropist. You founded Infosys Limited, one of the leading providers of information technology globally. In doing so, you transformed the economy of India, and demonstrated how to build a professional organization with values of meritocracy, innovation, excellence, and a keen sense of fairness to employees.

With an initial investment of $250 and under your extraordinary leadership Infosys Limited has grown to revenues exceeding $6 Billion, with 133,000 employees in 33 countries. Infosys reshaped the global software industry by pioneering the Global Delivery Model that helps deliver low-cost, high-quality software and services around the world.

You believe that the real power of success is in generosity. You created India’s largest stock option plans for Infosys employees by giving away as much as 35% of its equity. You helped to establish the Infosys Science Foundation to encourage and recognize scientific research, and the Infosys Foundation to address the needs of the very poor by building libraries and hospitals, providing scholarships to poor children, and supporting Akshaya Patra, a free lunch program that feeds 1.3 Million children every day.

In recognition of your inspirational leadership, your unending dedication to the highest ethics and values, and your generous philanthropy to the poor in India and around the world, and upon the recommendation of the Senate of the Urbana-Champaign campus, it is a great honor to present you to the President of the University for the honorary degree of Doctor of Science.

JAGDISH N. SHETH
Honorary Degree of Doctor of Science

Jagdish N. Sheth, educator, scholar, philanthropist. You have been a world renowned leader in the scholarship of marketing. Your more than 300 research papers and books have made major contributions in such areas as consumer behavior, relationship marketing, and marketing to emerging markets. Your classic 1969 book, *The Theory of Buyer Behavior*, with John A. Howard, revolutionized the field.

You founded two prominent research centers, the Center for Telecommunications Management at the University of Southern California, and the Center for Relationship Marketing at Emory University. Through the Sheth Foundation, you have helped develop and recognize scholars and scholarship in Marketing and develop the field.

As one of the world’s leading management thinkers and consultants, you have been highly successful and sought-after as a consultant to many of the Fortune 50 companies in the United States, as well as leading international corporations. You have provided similar consulting to the governments of the United States and Singapore. Colleagues and students describe you as a man of extraordinary curiosity, humility and warmth, and a man who “always makes us think.”

The sustained excellence of your contributions has greatly advanced both the scholarship and the practice of marketing and management. The lasting impact of your personal generosity and the work of your foundation will assure that you are a benefactor to generations of students and scholars. Now upon the recommendation of the Senate of the Urbana-Champaign campus, it is an honor to present you to the President of the University for the honorary degree of Doctor of Science.

EDWARD C. TAYLOR
Honorary Degree of Doctor of Science

Edward C. Taylor, teacher, scholar, and inventor. You are one of the foremost heterocyclic and medicinal chemists in the world. Through your achievements in chemical research, you have demonstrated the power of imaginative planning in heterocyclic synthesis. You have educated organic chemists in both academia and in industry through more than 400 scientific publications and 74 edited or authored books.

Your seminal contributions to the fields of heterocyclic chemistry opened new avenues of investigation for chemical synthesis and studies of the therapeutic potential of hundreds of new classes of organic compounds. Your investigations of “anti-folates” led to the development of the first drug ever approved for the treatment of mesothelioma. Alimta™, developed with Eli Lilly Corporation, has saved the lives of countless cancer patients, and is one of the most successful anti-cancer drugs on record.

You have made broad contributions to chemistry through your development of new synthetic methodology and the synthesis of heterocyclic compounds. For these accomplishments, you have been honored with Fulbright, Guggenheim, and Alexander Von Humboldt awards, the Thomas Alva Edison Award for Invention, and the National Academy of Sciences Award for Chemistry in Service to Society, among many others.

In appreciation of your great contributions to chemistry, and in recognition of your role as an educator and mentor to students and industry professionals, and upon the recommendation of the Senate of the Urbana-Champaign campus, it is a great honor to present you to the President of the University for the honorary degree of Doctor of Science.

JANE PHILLIPS DONALDSON
University of Illinois Alumni Distinguished Service Award

Jane Phillips Donaldson is a co-founder of Phillips Oppenheim, one of the first firms exclusively dedicated to providing high-level executive search service to nonprofit organizations and to helping nonprofits and their boards raise the leadership bar to advance their missions. Her firm has worked with over 600 clients throughout the United States and abroad in its 25-year history. Donaldson spent over 10 years in college administration as Dean of Admissions at Wesleyan University, Associate Director of Undergraduate Admissions at Yale, and as founding Director of Admissions and Placement at the Yale School of Management. She holds undergraduate and graduate degrees from the University of Illinois, and is a Director and former Chair of the University of Illinois Foundation Board. Donaldson is also a Director of the Woodrow Wilson Foundation, Caramoor Center for Music and the Arts, and StoryCorps. She is a former Trustee of Bennington College and a past board Chair of Jobs for the Future and of the Ackerman Institute for the Family. Donaldson received her bachelor’s degree in 1965 in Teaching of English and a master’s degree in Journalism in 1967 from the College of Media.

MARY-DELL CHILTON
University of Illinois Alumni Achievement Award

Mary-Dell Chilton is one of the principal founders of modern plant biotechnology. She is recognized for her groundbreaking research and its continued impact on agriculture. While a faculty member at Washington University in St. Louis, MO during the late 1970s and early 1980s, Chilton led a collaborative research study that produced the first genetically engineered plants. Chilton led a team of researchers at the University of Washington that was the first to discover the modern method of transferring DNA into host plants naturally, using a soil bacterium called Agrobacterium. This paved the way for future plant breeding improvements in agriculture that are commonly referred to as GMOs, or genetically modified organisms. Chilton is a Syngenta Distinguished Science Fellow and Founder of Syngenta Biotechnology, Inc. She gained the reputation as a legendary mentor of young laboratory scientists and worked with many others at Syngenta to successfully transform corn, cotton and other crops. Honors and recognitions include induction into the National Inventors Hall of Fame, United States Department of Agriculture Hall of Heroes and American Academy of Arts and Sciences, among many others; World Food Prize Laureate; and Benjamin Franklin Medal in Life Sciences. Chilton received her undergraduate degree in 1960 and doctorate in 1967, both in chemistry.
University Honors
2016 BRONZE TABLET SCHOLARS

The University Honors designation, the highest academic honor awarded to an undergraduate, is limited to those students who have demonstrated their capacity for sustained academic excellence of a high order. To be eligible for this honor, students must have a cumulative grade-point average of at least 3.5 and must rank—on the basis of cumulative grade-point average—in the upper three percent of their college graduating class on the basis of all work taken through the academic term prior to graduation. As part of their formal academic attire, University Honors recipients wear orange and blue braided cords.

As recipients of this honor, each of the following students will have his or her name inscribed on a bronze tablet that is displayed in the corridor of the University Library. For this reason, University Honors recipients are known informally as “Bronze Tablet Scholars.”

2016 CHANCELLOR’S SCHOLARS

A four-year program open to undergraduates in all curricula, the Campus Honors Program fosters collaborative relationships between exceptional students and distinguished faculty through small courses, a faculty mentor system, and competitive summer research and travel grants. Admission is awarded to only 125 of the approximately 7,000 freshmen entering the University of Illinois at Urbana-Champaign each year, plus about a dozen admitted as first-semester sophomores.

The following Chancellor’s Scholars are this year’s graduates of the Campus Honors Program:

VINCENT ALLEN ABEJUELA, Bachelor of Science in Liberal Arts and Sciences, Molecular and Cellular Biology; and Bachelor of Science in Physics
SARAH ARIEL ALTSHULER, Bachelor of Music Education
JENNA HAILEY ARONSON, Bachelor of Science in Special Education
RAMYA S. BABU, Bachelor of Science in Bioengineering
CONNOR SCOTT BAILEY, Bachelor of Science in Materials Science and Engineering
NICHOLAS HENRY BALKO, Bachelor of Science in General Engineering
MADISON TAYLOR BARKER, Bachelor of Science in Liberal Arts and Sciences, Molecular and Cellular Biology
LEANN A. BECKMAN, Bachelor of Science in Accountancy, December 2015
PRITAM DEV BHATTARAI, Bachelor of Science in Materials Science and Engineering
NICHOLAS MICHAEL BINKUS, Bachelor of Science in General Engineering
KATHERINE V. BOKENKAMP, Bachelor of Music in Voice
BENJAMIN PETER BOLAND, Bachelor of Science in Liberal Arts and Sciences, Actuarial Science
KATHERINE EMILY BORA, Bachelor of Arts in Liberal Arts and Sciences, History
SARA ASHLEY BRUMM, Bachelor of Science in Liberal Arts and Sciences, Psychology; and Bachelor of Arts in Liberal Arts and Sciences, English
JOSHUA CHARLES CAMP, Bachelor of Science in Computer Science
COLTON J. CANNON, Bachelor of Science in Computer Science
ISAAC CARRASQUILLO, Bachelor of Science in Engineering Physics
CRYSTAL H. CHANG, Bachelor of Science in Liberal Arts and Sciences, Molecular and Cellular Biology
MELODY GRACE CHUA, Bachelor of Music, Instrumental Music; and Bachelor of Arts in Music
MAXWELL ELLIOTT COLON, Bachelor of Science in Liberal Arts and Sciences, Psychology; and Bachelor of Arts in Liberal Arts and Sciences, Spanish
NICHOLAS AMIT CONNOLLY, Bachelor of Science in Chemical Engineering
EMILY DOLORES CULLUM, Bachelor of Science in Bioengineering
CHRISTINE MARGARET CURRIE, Bachelor of Science in Industrial Engineering
ANDREW G. CURTIS, Bachelor of Science in Materials Science and Engineering
WARREN NAPOLEON D’SOUZA, Bachelor of Science in Liberal Arts and Sciences, Actuarial Science; and Bachelor of Arts in Liberal Arts and Sciences, Economics
MARJORIE FRANCES DALLMANN, Bachelor of Science in Computer Engineering, December 2015
ALLISON ROSE DeFRANCESCO, Bachelor of Music, Instrumental Music
GRACE SUSAN DEETJEN, Bachelor of Science in Bioengineering
AMANDA DEL TORO, Bachelor of Science in Marketing and Supply Chain Management
XIANGYUN JOHN DUAN, Bachelor of Science in Electrical Engineering
SANJIT DUTTA, Bachelor of Science in Mechanical Engineering
JASON R. FLEISCHMAN, Bachelor of Science in Materials Science and Engineering
MICHAEL PAUL GAPINSKE, Bachelor of Science in Bioengineering
KATHERINE KELLY GARBACIAK, Bachelor of Science in Liberal Arts and Sciences, Integrative Biology
KIMBERLY ANN GASICIEL, Bachelor of Science in Liberal Arts and Sciences, Psychology
SAMANTHA SUSAN GEORGE, Bachelor of Science in Liberal Arts and Sciences, Molecular and Cellular Biology
GINO WILLIAM GIANNETTI, Bachelor of Science in Engineering Physics
CONNOR WAYNE GOODING, Bachelor of Science in Electrical Engineering
AUSTIN JOSEPH GRAF, Bachelor of Science in Physics
LAUREN JEAN HALL, Bachelor of Science in Food Science and Human Nutrition
MARY MARGARET HAP, Bachelor of Science in Crop Sciences
EHUD BIRUC HARRISON, Bachelor of Science in Physics
KIMBERLY ERIN HIRSCHHORN, Bachelor of Science in Liberal Arts and Sciences, Statistics

Academic Dress

Academic dress, consisting of cap, gown, and hood, originated about the twelfth century and was worn primarily for warmth. Subsequently, the material of the gown and lining, and the shape of the hood, represented the economic, social and academic status of the wearer.

In the United States, the great majority of the academic costumes now worn are in accordance with the general provisions of the Intercollegiate Code of 1895, which was revised in 1932 and again in 1960. Under this code, the bachelor’s gown has pointed sleeves, the master’s gown has oblong sleeves with an arc at the bottom, and the doctor’s gown has bell-shaped sleeves. Black is the traditional color for gowns, although at the University of Illinois at Urbana-Champaign, academic dress has been designed specifically for the institution—blue gowns with orange accents and blue mortarboards.

The bachelor’s and master’s gowns are untrimmed. The doctor’s gown is faced down the front with velvet and has three bars of velvet across the sleeves. The facing and bars may be black or blue, as is the case at Illinois, or may be the color of the subject to which the degree pertains. The bachelor’s gown is worn closed; the master’s and doctor’s gowns may be worn open or closed.

The bachelor’s hood is 3 feet in length; the master’s, 3½ feet; and the doctor’s, 4 feet. Hoods are lined with the official color or colors of the college or university conferring the degree. At Illinois, the lining is orange and blue. The colored velvet border of the hood, which is 2 inches, 3 inches, and 5 inches wide for the bachelor’s, master’s, and doctor’s degree respectively, identifies the faculty or field of study to which the degree pertains.

The mortarboard cap is standard in the United States. Usually, all tassels are black, but where the bachelor’s graduates do not wear hoods, as at Illinois, the color of the cap tassel indicates the department of study. Candidates for degrees wear tassels on the right front quadrant of their caps and move them to the left front quadrant after degrees are conferred by the president. Caps are considered a part of the costume and are customarily removed only during an invocation or benediction, and then by men only. The orange and blue braided cords worn from the left shoulder by bachelor’s graduates signify University Honors.

For all academic purposes, including trimmings of doctor’s gowns, edging of hoods, tassels of caps, and linings of banners, the colors associated with the different disciplines are as follows:

- Agricultural, Consumer and Environmental Sciences, maize
- Applied Health Sciences, sage green
- Architecture, blue-violet
- Business, drab
- Education, light blue
- Engineering, orange
- Fine and Applied Arts, brown
- Labor and Employment Relations, drab
- Law, purple
- Liberal Arts and Sciences, white
- Library and Information Science, lemon
- Media, crimson
- Philosophy, dark blue
- Social Work, citron
- Veterinary Medicine, gray

Bronze medallions engraved with the University seal distinguish faculty members who are endowed chair holders and professors. Endowed chairs and professorships carry great prestige within the institution and are among the highest honors the University can bestow on prominent faculty members.

The trustees of the University are identified by their blue gown faced with blue velvet panels and three chevrons on the sleeve. The chevrons are outlined in colors representing the three campuses and are in order in which the campuses were established—Urbana (orange), Chicago (red) and Springfield (white).

The Jewel of Office worn by the president was presented to the University by the Alumni Association. It is emblematic of the office of the president and is worn at all formal academic ceremonies. On the gold collar, also worn by the president, are engraved the names of the presidents of the University and their years of service.

Caps and gowns were worn for the first time at the University of Illinois Commencement ceremony of 1897. In the early 1900s the Commencement procession marched up Burrill Avenue to the old Armory. After diplomas were received, the procession marched back to the lawn south of Green Street. The seniors sang the state song and “Auld Lang Syne” before they said good-bye to each other and the campus.
This program contains an unofficial list of candidates for graduation on May 14, 2016, and a list of graduates who received degrees in August 2015 and December 2015.

The list of May graduates is as accurate as possible. However, because of printing deadlines, names of some degree recipients may not appear, while names of degree candidates may appear even though they have not completed their degree requirements.

The University’s official registry for conferral of degrees is the Office of the Registrar, 901 West Illinois Street, Urbana, IL 61801.
