2018

LIVES
TRANSFORMED

TO OUR GUESTS

Commencement is the culmination of the academic year. Today we recognize our graduates' accomplishments. We hope this ceremony is an important and meaningful occasion for students, their families, and the faculty and staff. We offer you the following guidelines to enhance the dignity and ensure the smooth flow of the ceremony.

As a service to parents with small children who may become restless during the two-hour event, the ceremony will be broadcast in the West Main Hall of the stadium.

Graduates and guests are asked to please remain seated until the end of the recessional.

Sign language interpretation is provided on stage and in front of Section 127. Guests who are hearing impaired may sit in Section 127 of Memorial Stadium so that they may better view the interpreters. Graduates who are hearing impaired should sit as close to the stage as possible within their designated section on the field. Please see an usher if you need assistance.

For your convenience, a first-aid station is located at Gate 24 on the south end of the stadium.

In the event of inclement weather, guests will be alerted of changes to the program or evacuation plans.

SINGING OF “THE STAR-SPANGLED BANNER”

SUNG BY THE AUDIENCE

O say can you see by the dawn’s early light,
What so proudly we hail’d at the twilight’s last gleaming?
Whose broad stripes and bright stars thro’ the perilous fight,
O’er the ramparts we watch’d were so gallantly streaming!
And the rocket’s red glare, the bombs bursting in air,
Gave proof thro’ the night that our flag was still there.
O say does that Star-Spangled Banner yet wave,
O’er the land of the free and the home of the brave?

Lives Transformed

Our students come to Illinois to discover who they are. We want to show them who they can become.

They come here from all fifty states and more than half of the nations of the world. Some are the first in their family to attend college. Others come from a long line of alumni.

They hope to become teachers, artists, CEOs, engineers, doctors, lawyers, activists, politicians, writers, chemists, historians or to create the jobs that don't yet have names.

Some planned on attending for years. Others discovered the campus on a tour. Some arrived with an agenda and a list of goals. Others figured it out along the way.

They have different backgrounds, experiences, beliefs and viewpoints. Their hometowns range in size from double digits to many millions.

But for one window of time, they all come together right here at Illinois.

And when you bring together the brightest and most talented students in the world at a university like this one, everything changes. They encourage, challenge and compel one another to think differently. When they leave this university, they are not the same as when they arrived.

They leave with new knowledge to be sure. But they also leave with new connections, viewpoints and experiences that will shape the rest of their lives.

And then they go out and change the world.

#LivesTransformed #ILLINOIS2018

BEST WISHES TO THE CLASS OF 2018!

Graduates of the University of Illinois at Urbana-Champaign, Class of 2018, I proudly congratulate you and extend best wishes on behalf of the Board of Trustees and the nearly 13 million people of our state whose interests we represent.

This university is one of the finest in the world, a land-grant institution that for 150 years has consistently demonstrated its excellence and broad scope in teaching, discovery, innovation, public service, and economic impact.

The iconic campus brings together world-renowned scholars to educate and prepare its superb students as future leaders. Research conducted here has led to transformational changes in our world – and always for the public good.

Your Illinois education provides a strong foundation upon which to pursue your dreams and realize your goals. Regardless of what you do and where you go, the Illinois degree will be a lifetime credential of academic achievement and excellence. Not only are you to be commended, but so too are the family and friends who have provided their support along your journey.

As a proud Illinois alumnus myself, I am pleased to welcome you into the fellowship of an alumni organization that spans the globe, advocates on behalf of the U of I System, and sustains personal connections that can span generations. Illinois alumni lead by example with ingenuity, compassion and hard work — strong Midwestern values.

May you share the pride I have in you and in our university, and may you spread our tradition of excellence wherever life takes you.

TIMOTHY N. KORITZ

Chair of the Board of Trustees

CONGRATULATIONS, CLASS OF 2018!

There are a small handful of days in life that you never forget. From my own experience, I can tell you that today is one of them, so I hope you savor every minute of it.

Today's lifetime memory is built on hundreds of others you collected during your years at this great university. Your experiences with world-class faculty, with leading-edge academic and student programs, and with your fellow students have helped shape you and unlock the doors to your dreams.

They have prepared you for your next step in a new journey that begins tomorrow, on a pathway grounded in the talents and civic-minded spirit you nurtured here that will lift your careers, your families, and your communities.

On behalf of the entire University of Illinois family, it is an honor to celebrate you, joined by the proud family and friends who have supported you along the way.

Enjoy your day and come back often.

TIMOTHY L. KILLEEN
President

John Milton Gregory, right, the university's first regent, is buried north of Altgeld Hall. His commemorative marker on the south of Altgeld reads, "If you seek his monument, look around you."

"Without lake, or hill, or river, or rock, one of the most impressive of college grounds you can find anywhere has been made." – Andrew Draper, left, president of the University of Illinois, 1894-1904.

CONGRATULATIONS TO ALL OF OUR 2018 GRADUATES!

Today, you all earn a degree and also earn your place in Illinois history. Your achievements, accomplishments and efforts here have been impressive. You picked a challenging academic road when you chose to attend. You carried on the tradition of excellence that has defined Illinois across generations and centuries.

Congratulations are also due to the parents, spouses, friends, mentors and family members who have been with these graduates every step of the way. Today is your celebration as well and I encourage you to claim a part of every round of applause that will shake the stadium.

We should also thank those in the extended Illinois family who have supported these graduates with gifts to campus scholarship and fellowship programs. These investments in human potential make the Illinois student experience possible for thousands of our students every year.

To all of you who will earn a degree today – undergraduate, master’s, professional or doctoral – I wish you good fortune and personal and professional success in the years ahead. I also leave you with a request. I ask that you share the character, kindness and integrity you showed in your time at Illinois with the communities that you will call home throughout your lives.

Today, you join one of the most powerful alumni networks in the world. I hope you will continue to connect with Illinois and with each other. You may be leaving the campus, but your connections will always be with you.

Congratulations to you all!

ROBERT J. JONES

Chancellor

COMMENCEMENT SPEAKER

MAX LEVCHIN
Founder and CEO, Affirm
Co-founder, PayPal
Former Chairman of the Board,
Yelp

Max Levchin is a 1997 graduate of the University of Illinois at Urbana-Champaign, earning a bachelor of science in computer science.

An angel investor and serial entrepreneur, Max Levchin is currently CEO of Affirm, president of HVF Labs, chairman of Glow and an advisory board member of the Consumer Financial Protection Bureau. He is a co-founder of the worldwide online payments system PayPal and former chairman of the board of crowd-sourced reviewer of local businesses Yelp.

Levchin was raised in a family of Soviet scientists. The family was told multiple times that he would not survive the respiratory diseases of his youth; young Levchin was prodded to take up the clarinet to build lung capacity. When the Chernobyl nuclear power plant exploded in 1986, his family loaded Levchin and his younger brother on a train from their home in Kiev bound for Crimea for their safety.

The family left the USSR under political asylum in 1991, shortly before the Soviet Union collapsed. With just \$700 to their name, they settled in Chicago, where Levchin attended Mather High School on the city's north side before enrolling at Illinois in 1993.

By the time he graduated, Levchin had co-founded with classmates two companies that made internet tools. A company he co-founded came up with the money-transfer service known today as PayPal, which eventually went public before being purchased by eBay. In one of many encores to his initial success, Levchin in 2004 helped start the online social networking and review service Yelp, serving as board chairman until 2015.

He has remained involved with and supportive of the University of Illinois at Urbana-Champaign, making several appearances on campus. Levchin and his companies have hosted the Technology Entrepreneur Center's Silicon Valley Workshop, where students take a weeklong tour of Silicon Valley companies and startups.

SHEILA CRUMP JOHNSON
Honorary Degree of
Doctor of Fine Arts

HONORARY DEGREE CITATION

Sheila Crump Johnson, educator, entrepreneur, philanthropist. Upon an academic foundation in music and education, you built an extraordinary career in entrepreneurship and executive leadership. You are a tireless advocate of arts education at all levels, and your philanthropic work has improved lives around the world.

Your accomplishments as a violinist and music teacher led you to create the Young Strings in Action Orchestra. As a United States Cultural Liaison to the Middle East, you helped establish the National Music Conservatory of Jordan. You co-founded Black Entertainment Television, the first network devoted to the culture of African Americans. You created Salamander Hotels and Resorts. You became President and Managing Partner of the WNBA's Washington Mystics, and then expanded your leadership in athletics as Vice Chair of Monumental Sports and Entertainment, with ownership of three professional franchises. You have produced documentary films that tell true stories of overcoming adversity.

From the wealth you have built, you have given generously in ways that reflect your passion for social justice. Your humanitarian efforts led to your appointment as Global Ambassador for the poverty-fighting agency, CARE, and to President Obama's Presidential Committee on Arts and Humanities.

In appreciation of your achievements in the arts, in business, and in service to others, and in recognition of the inspiration you have provided to women in these fields, and upon the recommendation of the Senate of the Urbana-Champaign campus, it is a great honor to present you to the President of the University for the honorary degree of Doctor of Fine Arts.

Presented by: *Peter Mortensen, Interim Dean, College of Fine and Applied Arts, University of Illinois at Urbana-Champaign*

ROBERT S. LANGER
Honorary Degree of
Doctor of Engineering

HONORARY DEGREE CITATION

Robert S. Langer, inventor, educator, entrepreneur. You are celebrated as one of the most prolific inventors in the history of medicine, and your scholarly contributions are among the most frequently cited by ensuing generations of researchers and scholars. You hold more than one thousand patents, many of which have been licensed for clinical use by leading nanotechnology companies.

You have been a pioneer in the creation of both controlled-release drugs and tissue engineering. Your discoveries have saved countless lives and launched a \$100-billion per year industry from products developed from your seminal work, including nicotine patches, coated cardiovascular stents, drug release systems operated by remote control, and implantable chips for timed release of precise amounts of drugs. Your pioneering work to grow transplantable tissue on biodegradable synthetic polymer scaffolding is being developed by your and others' laboratories into new techniques to grow skin and cartilage, as well as blood vessels and muscle tissue.

You are a dedicated teacher and mentor. Many of today's most influential leaders in bioengineering and health sciences were developed under your tutelage. In service to your fellow scientists, you have built bridges among biomedical engineers and biomaterials scientists, materials researchers, pharmaceutical scientists, biologists, clinicians and chemists.

In recognition of your pioneering work, your passion for translating fundamental concepts into clinical solutions, and your dedication to developing generations of outstanding scholars and researchers, and upon the recommendation of the Senate of the Urbana-Champaign campus, it is a great honor to present you to the President of the University for the honorary degree of Doctor of Engineering.

Presented by: *Tamer Başar, Interim Dean, College of Engineering, University of Illinois at Urbana-Champaign*

UNIVERSITY HONORS

2018 BRONZE TABLET SCHOLARS

The University Honors designation, the highest academic honor awarded to an undergraduate, is limited to those students who have demonstrated their capacity for sustained academic excellence of a high order. To be eligible for this honor, students must have a cumulative grade-point average of at least 3.5 and must rank—on the basis of cumulative grade-point average—in the upper three percent of their college graduating class on the basis of all work taken through the academic term prior to graduation.

As part of their formal academic attire, University Honors recipients wear orange and blue braided cords.

As recipients of this honor, each of the following students will have his or her name inscribed on a bronze tablet that is displayed in the corridor of the University Library. For this reason, University Honors recipients are known informally as “Bronze Tablet Scholars”.

2018 CHANCELLOR'S SCHOLARS

A four-year program open to undergraduates in all curricula, the Campus Honors Program fosters collaborative relationships between exceptional students and distinguished faculty through small courses, a faculty mentor system, and competitive summer research and travel grants. Admission is awarded to only 125 of the approximately 7,000 freshmen entering the University of Illinois Urbana-Champaign each year, plus about a dozen admitted as first-semester sophomores.

The following Chancellor's Scholars are this year's graduates of the Campus Honors Program:

SARAH ELIZABETH ACKENHUSEN, Bachelor of Science in Liberal Arts and Sciences, Chemistry

ITAMAR JACOB ALLALI, Bachelor of Science in Liberal Arts and Sciences, Astronomy; Bachelor of Science in Physics

VIKRAM SRIRAM ANJUR, Bachelor of Science in Computer Engineering

MELANIE A BERG, Bachelor of Science in Accountancy; Bachelor of Science in Finance

NICOLE GRACE BERTRAND, Bachelor of Science in Advertising, December 2017

ANISH BHATTACHARYA, Bachelor of Science in Electrical Engineering

HANNAH ELIZABETH BOHN, Bachelor of Science in Middle Grades Education

ALEX MATTHEW BRAUMAN, Bachelor of Science in Agricultural and Biological Engineering

HALEY E BROWN, Bachelor of Science in Chemical Engineering

CASEY C BUNGE, Bachelor of Science in Liberal Arts and Sciences, Molecular and Cellular Biology

ANQI CHEN, Bachelor of Science in Finance, December 2017; Bachelor of Science in Accountancy, December 2017

JENNIFER CHENG, Bachelor of Science in Biochemistry

AAKASH MILIND CHOUBAL, Bachelor of Science in Mechanical Engineering

CHARLOTTE JACKLENE COLLINS, Bachelor of Science in Journalism

ERIC JOHN CONNELLY, Bachelor of Science in Engineering Physics

SPENCER NINA COPELAND, Bachelor of Science in Accountancy; Bachelor of Science in Information Systems and Information Technology

JAMES EDWARD COSTIN, Bachelor of Science in Civil Engineering

JACK THOMAS COUTRE, Bachelor of Science in Computer Engineering

AMANDA ELIZABETH COWFER, Bachelor of Science in Liberal Arts and Sciences, Molecular and Cellular Biology and Chemistry

MRUNMAYI MILIND DESHMUKH, Bachelor of Science in Electrical Engineering

STEVEN JAMES DONNEWALD, Bachelor of Science in Finance; Bachelor of Science in Accountancy

LUCIA SUZANNE DUNDERMAN, Bachelor of Science in Agricultural and Biological Engineering

ANDREW THOMAS EBERLEIN, Bachelor of Science in Physics; Bachelor of Science in Liberal Arts and Sciences, Mathematics

SAMANTHA PAIGE ELIZONDO, Bachelor of Arts in Liberal Arts and Sciences, Anthropology

GRAHAM BEALL ELLINGHAUSEN, Bachelor of Science in Computer Engineering

Viraat Goel

Alice Cheever (right), A. B. 1874, M.L. 1892, was one of the first female students to graduate from the university. Women gained the right to attend Illinois in 1870 after an official vote of the Board of Trustees. According to the papers of Illinois graduate Adelia Potter Reynolds, Adelia (or her mother) allegedly overheard one of the trustees declare during deliberations of allowing women to attend, "If a girl wants to build a wagon, let her build a wagon."

Millicent Sloboda Lane (left), first woman editor-in-chief of *The Daily Illini* in the '40s, used the student newspaper to champion the cause of the military trainees and veterans on campus during World War II.

#LIVESTRANSFORMED

"I never really wanted to go anywhere else. I didn't really apply anywhere else. I didn't really tour anywhere else. This is where I always wanted to be. I actually found horticulture on Quad Day. I never really knew that's what I wanted to do. I knew I liked plants, but I found the horticulture club booth on Quad Day. I had never heard the word before, never heard of horticulture club – nothing. And I mean I still have the plant they gave me freshman year in my room. It's kind of symbolic for me. I found what I wanted to do here at Illinois."

Chloe Smith, Bachelor's Degree in Horticulture and Actuarial Science

"Being here, I've learned what I deserve as a woman. In Tokyo, I would experience horrible things outside of school like people touching me without my consent on the trains, and that's a big social issue. But you could not call it out as well, because it's such a normalized thing. And there were other things too like watching movies or reading books, you realize things are sexist but when that's normal to you, you don't realize that. Coming here and being in a liberal arts program, I've realized what I deserve and what I can call out and what I'm able to be entitled to."

Naomi Kainuma, Bachelor's Degree in Political Science

"When I started I had some anxiety, and I really didn't think I would have to deal with that. It was a struggle for me in the beginning to go to class and to stick with it. So, I actually went to the Counseling Center. One thing my counselor said in the process was, 'What's the difference between someone who is fearless and someone who is courageous? The person who is fearless doesn't have any fear. They just do what they do. But the person who is courageous says despite the fear, they're going to go after it anyway.' So that's one of the biggest lessons I have learned in this program. Going forward I know that whatever challenge I face working, I have the courage to, despite my fear, go for it anyway."

-Victoria Woods, Master's Degree in Labor and Employment Relations

"I definitely am a different person and I know this from reflecting back from my boss who has known me since freshmen year. I actually took the class to prepare to become an RA with my current boss. I was definitely more shy and more reserved. But I started to get into the RA thing, which told me I can do other things and change things in bigger spaces outside of my residence hall communities. So, I created a registered student organization. I brought in workshops that we didn't have. I did a screenwriting workshop. We were in between having production classes, and I had a sound editing workshop. I went from feeling like I wasn't powerful and had to go with what was already set from years back, to knowing that I could actually change the university."

-Reneeta Mack, Bachelor's Degree in Media and Cinema Studies

"I've learned that I am very passionate about things that I didn't know I would be passionate about. I came from a very marginalized population in Chicago. So I didn't know about all these other issues facing people, I only knew about what was facing me. Coming into Illinois, I began to understand different issues facing women or Asian Americans or Pacific Islanders or transgender people. Now, those are all issues I care about and am passionate about. I want to help people and students who have these different identities that are different than mine. Being able to interact with these people who aren't like me has been invaluable to me. You learn not only about peoples' experiences, you also learn about their world."

-Steven Waddell, Bachelor's Degree in Education

"One of the things that engineers, and myself, struggle with today is technical communications and public speaking. I'd say after my experiences, I'm very well-versed in public speaking and that's not something many engineers can say. So, that has really brought out the leader in me. I have a couple leadership experiences of being a director for one of my organizations as well as being an on campus affiliate and being on multiple boards. But that really shows how much voice I have in me, and I didn't realize that until I became this leader and put in this position. I realized there's this person inside me that wouldn't have come along if I hadn't gone out and taken a leap of faith."

-Jose Christian De Lara, Bachelor's Degree in Aerospace Engineering

"As a freshman, I had no idea I would be starting a start-up company. I'm in the School of Social Work. I'm not really a business person, but I was in a social entrepreneurship class. Our teacher told us to come up with an idea that would change the world. So, I knew my passion was working with individuals with disabilities, so I thought why not combine this passion with social entrepreneurship? So, that's where I came up with the idea for Creative Souls. Creative Souls provides an opportunity for people with disabilities to create artwork on shoes, and hopefully more apparel and accessories in near future. It's just so important to me to give people with disabilities opportunities to work and be happy. It started with just an idea, and U. of I. has enabled me to get it off the ground and become a reality that can impact thousands of people across the world."

-Drew McNamara, Master's Degree in Social Work

"Coming here, I wasn't sure what to expect. I didn't have a lot of friends who came to college here. So, I didn't really have an expectations. It's a huge campus, and there are a lot of people everywhere. I was actually kind of scared coming in. Chemistry has over 300 people in a classroom in a lecture hall, and I didn't know if I was going to be able to do it. It's a lot of people. But as time went on and classes got smaller, I felt better about it. Now, it feels like home."

-Starr'Retiece Gibson, Bachelor's Degree in Food Science and Human Nutrition

Academic Dress

Academic dress, consisting of cap, gown, and hood, originated about the twelfth century and was worn primarily for warmth. Subsequently, the material of the gown and lining, and the shape of the hood, represented the economic, social and academic status of the wearer.

In the United States, the great majority of the academic costumes now worn are in accordance with the general provisions of the Intercollegiate Code of 1895, which was revised in 1932 and again in 1960. Under this code, the bachelor's gown has pointed sleeves, the master's gown has oblong sleeves with an arc at the bottom, and the doctor's gown has bell-shaped sleeves. Black is the traditional color for gowns, although at the University of Illinois at Urbana-Champaign, academic dress has been designed specifically for the Institution – blue gowns with orange accents and blue mortarboards.

The bachelor's and master's gowns are untrimmed. The doctor's gown is faced down the front with velvet and has three bars of velvet across the sleeves. The facing and bars may be black or blue, as is the case at Illinois, or may be the color of the subject to which the degree pertains. The bachelor's gown is worn closed; the master's and doctor's gowns may be worn open or closed.

The bachelor's hood is 3 feet in length; the master's, 3 1/2 feet; and the doctor's, 4 feet. Hoods are lined with the official color or colors of the college or university conferring the degree. At Illinois, the lining is orange and blue. The colored velvet border of the hood, which is 2 inches, 3 inches, and 5 inches wide for the bachelor's, master's, and doctor's degree respectively, identifies the faculty or field of study to which the degree pertains.

The mortarboard cap is standard in the United States. Usually, all tassels are black, but where the bachelor's graduates do not wear hoods, as at Illinois, the color of the cap tassel indicates the department of study. Candidates for degrees wear tassels on the right front quadrant of their caps and move them to the left front quadrant after degrees are conferred by the president. Caps are considered a part of the costume and are customarily removed only during an invocation or benediction, and then by men only. The orange and blue braided cords worn from the left shoulder by bachelor's graduates signify University Honors.

For all academic purposes, including trimmings of doctor's gowns, edging of hoods, tassels of caps, and linings of banners, the colors associated with the different disciplines are as follows:

- Agricultural, Consumer and Environmental Sciences, maize
- Applied Health Sciences, sage green
- Architecture, blue-violet
- Aviation, copen blue
- Business, drab
- Education, light blue
- Engineering, orange
- Fine and Applied Arts, brown
- Information Sciences, lemon
- Labor and Employment Relations, drab
- Law, purple
- Liberal Arts and Sciences, white
- Media, crimson
- Medicine, hunter green
- Philosophy, dark blue
- Social Work, citron
- Veterinary Medicine, gray

Bronze medallions engraved with the University seal distinguish faculty members who are endowed chair holders and professors. Endowed chairs and professorships carry great prestige within the institution and are among the highest honors the University can bestow on prominent faculty members.

The trustees of the University are identified by their blue gown faced with blue velvet panels and three chevrons on the sleeve. The chevrons are outlined in colors representing the three campuses and are in order in which the campuses were established – Urbana (orange), Chicago (red) and Springfield (white).

The Jewel of Office worn by the president was presented to the University by the Alumni Association. It is emblematic of the office of the president and is worn at all formal academic ceremonies. On the gold collar, also worn by the president, are engraved the names of the presidents of the University and their years of service.

Caps and gowns were worn for the first time at the University of Illinois Commencement ceremony of 1897. In the early 1900s the Commencement procession marched up Burrill Avenue to the old Armory. After diplomas were received, the procession marched back to the lawn south of Green Street. The seniors sang the state song and "Auld Lang Syne" before they said good-bye to each other and the campus.

This program contains an unofficial list of candidates for graduation on May 12, 2018, and a list of graduates who received degrees in August 2017 and December 2017.

The list of May graduates is as accurate as possible. However, because of printing deadlines, names of some degree recipients may not appear, while names of degree candidates may appear even though they have not completed their degree requirements.

The University's official registry for conferral of degrees is the Office of the Registrar, 901 West Illinois Street, Urbana, IL 61801.

Produced by Office of Public Affairs in collaboration with the Office of the Registrar for the Office of the Chancellor. The University of Illinois is an equal opportunity, affirmative action institution. Printed on recycled paper with soy ink.
