COMMENCEMENT  
SPEAKER

# Jeanne Gang

**2024 COMMENCEMENT SPEAKER**

Internationally recognized architect and Illinois alumna Jeanne Gang is the University of Illinois Urbana-Champaign Commencement speaker. Gang graduated from Illinois with a degree in architecture in 1986.

Gang is the founding partner of Studio Gang, an architecture and urban design practice with offices in Chicago, New York, San Francisco and Paris. She is known for her approach to design that prioritizes connections between people, their communities and the environment.

St. Regis Chicago

Aqua Tower

Her award-winning work includes two towers that have redefined Chicago's skyline: the 101-story St. Regis Chicago, now the city's third-tallest building, and the 82-story Aqua Tower. Other completed work in Chicago includes the Nature Boardwalk at Lincoln Park Zoo and two boathouses along the Chicago River. She is also designing a new global terminal for O'Hare International Airport.

She also recently completed the Richard Gilder Center for Science, Education, and Innovation at the American Museum of Natural History in New York City, which The Wall Street Journal named among the Best Architecture of 2023. Her other work includes the reimagined Arkansas Museum of Fine Arts in Little Rock and the Arcus Center for Social Justice Leadership in Kalamazoo, Michigan.

A professor in practice at the Harvard Graduate School of Design, Gang received the MacArthur Foundation "genius grant" in 2011 and was named one of Time magazine's most influential people in 2019. Additional accolades include the Cooper Hewitt National Design Award in Architecture, the Charlotte Perriand Award, the ULI Visionary Prize and Architectural Review's Architect of the Year. She was elected to the American Academy of Arts and Sciences in 2017 and was named an International Fellow by the Royal Institute of British Architects in 2018.

TO THE CLASS OF 2024

**Donald J. Edwards,  
Chairman,  
Board of Trustees**

On behalf of the University of Illinois Board of Trustees, and as a proud alumnus of Illinois, I am honored to bring greetings and congratulations to the Class of 2024.

I hope that these past few years and your experiences here at Urbana-Champaign have been some of the best, most rewarding ... and most challenging ... of your lives.

Although it has been quite a few years since I sat in your seat at my own graduation, I still remember the mix of excitement and anxiety I felt, not knowing exactly what the future would hold.

That is understandable.

But rest assured that your experiences here, both in and out of the classroom, have provided you with the foundation to succeed and flourish.

Now take that foundation and build on it. Follow your passions, find your path, but never stop learning.

As you take the next steps in your life's journey, know that you carry a bond that forever connects you to your years on this remarkable campus.

You are joining one of the world's largest alumni networks — more than 800,000 strong from across the University of Illinois System's three best-in-class universities.

You will find us in just about every country on Earth.

I hope you will carry our flag with pride, with your successes adding to Illinois' global reputation for excellence and attracting the new generations of students who want to follow in your footsteps.

I hope you also will come back to this beautiful campus often to share your achievements, your experiences and your insights.

And, as you are out there building your career and changing the world, know that those of us still here at the U. of I. will be working for you, ensuring that the value and prestige of your Illinois degree continue to grow.

**Congratulations again, Class of 2024!**

**Timothy L. Killeen,**  
**President,**  
**University of Illinois System**

To the Class of 2024,  
congratulations!

This day has been many years in the making. But as new graduates of the University of Illinois Urbana-Champaign, you are ready for the opportunities that now lie ahead of you.

The memories you have made on the way to this day, the friends and colleagues who have become part of your lives and the journey of discovery you have made these past few years have transformed you and given you the tools to navigate what comes next.

Your accomplishments, your ability to adapt and innovate and the sense of civic engagement you have shown during your time at Illinois will serve you well for the rest of your life.

For now, with Commencement, take the time to enjoy a well-earned sense of pride and achievement.

Do not let the day pass without reflecting on this milestone and all that you have learned along the way. Today is truly among the small handful of days that you will always remember.

Savor it — every minute.

And celebrate with the family and friends who believe in you, those who have helped and supported you along the way.

Remember, too, that we look forward to seeing you in the future and sharing in your discoveries and successes.

I am deeply honored to celebrate with all of you and to welcome you to the family of University of Illinois alumni around the globe.

**Congratulations again, members of the Class of 2024!**

**Robert J. Jones,**  
**Chancellor,**  
**University of Illinois**  
**Urbana-Champaign**

Congratulations on this milestone in your life and career. I truly hope your Illinois journey has been one filled with discovery, joy and a sense of pride in your achievements.

From the day you began at this university, you have defined yourselves by your innovative spirit and desire to learn. Your achievements certainly deserve celebration. And from the day you arrived, you have been asked to help all of us rewrite what “normal” actually means in a world that the pandemic changed overnight. Nothing about your journey has been easy. But through every obstacle, you have continued to set a new standard of excellence here at Illinois.

You should be extraordinarily proud of the work you have done. It takes commitment, tenacity and a great deal of very hard work to earn the right to be wearing this orange and blue regalia, in this seat, in this stadium, at one of the best universities in the world on this day.

On behalf of our entire university community, we are honored to welcome you into the Illinois alumni family. I can't wait to see all the great things you will accomplish, and I look forward to celebrating your success as you begin to use your knowledge and skills to impact the world. In the meantime, I hope you stay connected as you embark on your next chapter.

**Congratulations!**

# HONORARY DEGREE CITATIONS

# James D. Anderson,

## Honorary Degree of Doctor of Science and Letters

**PRESENTED BY:**

*Chrystalla Mouza,  
Dean, College of Education,  
University of Illinois Urbana-Champaign*

James D. Anderson: scholar, historian, mentor. Your career at the University of Illinois Urbana-Champaign has been marked by distinguished scholarship, teaching and service. For more than 50 years, you have been a stalwart advocate of college access, diversity, inclusion and opportunity for everyone.

You have been a prolific author. Your book, “The Education of Blacks in the South, 1860-1935,” is the definitive history on African American education. In your book, you reveal that the African American community has relentlessly pursued and cherished learning, contrary to much of the previous written history. Your scholarship on African American education has greatly influenced the fields of both history and education.

You are widely recognized for your expertise. Your documentation and analysis of African American education has influenced modern desegregation and affirmative action jurisprudence through your expert testimony in court cases.

You have been recognized with the highest awards in your field, including a Lifetime Achievement Award from the American Association for Colleges of Teacher Education (AACTE), which also named its dissertation award after you, in honor of your commitment to

graduate student development. Hundreds of students from around the world have benefitted from your guidance and mentorship.

In recognition of your commitment to students, scholarship, service and to the University of Illinois, and upon the recommendation of the Senate of the Urbana-Champaign campus, it is an honor to present you to the President of the University for the honorary degree of Doctor of Science and Letters.

# Jeanne Gang,

## Honorary Degree of Doctor of Fine Arts

**PRESENTED BY:**

*Kevin Hamilton,*

*Dean, College of Fine and Applied*

*Arts, University of Illinois Urbana-Champaign*

Jeanne Gang: architect, educator, visionary. Your studio has given us buildings as iconic as Chicago’s own St. Regis and Aqua towers, the new Global Terminal at O’Hare and the Richard Gilder Center at the American Museum of Natural History. You have shown how forms that delight and inspire emerge at their best within careful plans for how they interact with the human and natural systems that course through them. You design, lead and teach in ways that literally bridge us to the future with care and humanism, marrying idealism to pragmatism to enable new ways of living with one another and the planet.

We have watched with pride as you rose from Belvidere, Illinois, through studying in our own School of Architecture to take a rightful place on the global stage. From early celebration as a MacArthur “genius” to recent recognition by TIME magazine as one the world’s most influential people, you have been the best model we could have imagined of what Illinois can give the world through architecture and planning, keeping human flourishing always at the center.

In recognition of the ways your work has changed the very shape of our cities and the field of architecture itself, and upon the recommendation of the Senate of the Urbana-Champaign campus, it is an honor to present you to the President of the University for the honorary degree of Doctor of Fine Arts.

**I-Min Lee,**

**Honorary Degree of Doctor  
of Science**

**PRESENTED BY:**

*Cheryl Hanley-Maxwell,*

*Dean, College of Applied Health*

*Science, University of Illinois Urbana-Champaign*

I-Min Lee: epidemiologist, researcher, author. You are among the world's leading authorities on physical activity and health. You have made important contributions to the fields of epidemiology, physical activity research and public health.

Your seminal papers provide evidence of the health benefits of physical activity for cardiovascular disease and for cancer. You brought epidemiological methods into the exercise, sport and physical activity arenas. Your work is at the cutting edge of research furthering our understanding of the importance of physical activity to public health.

You have an incredible ability to distill complex methods and data into compelling presentations. You led the landmark 2012 paper that demonstrated that physical inactivity underlies more than five million deaths each year. This paper is one of the most cited publications in the field. You famously told the world that “inactivity is as deadly as smoking.” Hundreds of thousands of other researchers have cited you in building upon your work.

You have been a prolific academic author, with more than 600 peer-reviewed academic papers in addition to textbooks that are used broadly around the world.

In recognition of your contributions to the body of knowledge around the epidemiology of physical activity and your efforts to inform the world of the dangers of sedentary lifestyles, and upon the recommendation of the Senate of the Urbana-Champaign campus, it is an honor to present you to the President of the University for the honorary degree of Doctor of Science.

# Larry Smarr,

## **Honorary Degree of Doctor of Engineering**

**PRESENTED BY:**

*Rashid Bashir, Dean, The Grainger College of Engineering, University of Illinois Urbana-Champaign*

Larry Smarr: physicist, computer scientist, visionary. You pioneered new computational technologies to transform how scientists collaborate and how knowledge is shared. Through your work, many fields have realized major interdisciplinary, innovative advances.

As a young professor in astronomy at Illinois, you proposed a new program to NSF that led to the creation of the National Center for Supercomputing Applications at Illinois and eventually to five national centers. The centers enabled major advances in many disciplines, including scientific visualization, networking, distributed collaboration and data analytics. You recognized that advanced computing could be a tool to enhance U.S. economic competitiveness. Early cellular network designs, insurance pricing, airline routing and drug design all benefited from the NCSA Industrial Partner Program.

Your vision laid the foundation for today's internet. NCSA attracted highly capable, motivated students, and it was this culture that birthed Mosaic, the first web browser. You also proposed the creation of the California Institute for Telecommunications and Information Technology (Calit2), which led to significant advancements in genomic research.

You have been the recipient of the highest awards, including the Franklin Institute's Delmer S. Fahrney Medal for Leadership in Science or Technology, the Telluride Tech Festival Award of Technology and the IEEE Computer Society Tsutomu Kanai Award.

In recognition of your contributions to the fields of computer science, telecommunications, physics, astronomy and health sciences, and upon the recommendation of the Senate of the Urbana-Champaign campus, it is an honor to present you to the President of the University for the honorary degree of Doctor of Engineering.

# UNIVERSITY HONORS

ILLINOIS

# Bronze Tablet Scholars

The University Honors designation, the highest academic honor awarded to an undergraduate, is limited to those students who have demonstrated their capacity for sustained academic excellence of a high order. To be eligible for this honor, students must have a cumulative grade point average of at least 3.5 and must rank on the basis of cumulative grade point average in the upper 3 percent of their college graduating class on the basis of all work taken through the academic term prior to graduation.

University Honors recipients wear orange and blue braided cords as part of their formal academic attire.

As recipients of this honor, each of the following students will have his or her name inscribed on a bronze tablet that is displayed in the corridor of the University Library. For this reason, University Honors recipients are known informally as “Bronze Tablet Scholars.”

# Chancellor's Scholars

A four-year program open to undergraduates in all curricula, the Campus Honors Program fosters collaborative relationships between exceptional students and distinguished faculty through small courses, a faculty mentor system and competitive summer research and travel grants. Admission is awarded to only 125 of the approximately 7,000 freshmen entering the University of Illinois Urbana-Champaign each year, plus about a dozen admitted as first-semester sophomores.

The following Chancellor's Scholars are this year's graduates of the Campus Honors Program:

**Jamie Elisabeth Abbott,**

Bachelor of Science in Agricultural and Biological Engineering

**Liara Elizabeth Aber,**

Bachelor of Arts in Liberal Arts and Sciences, Political Science,  
December 2023

**Mutmaina Akorede Olasege Adebayo,**

Bachelor of Science in Liberal Arts and Sciences, Computer  
Science and Philosophy

**Kevin Arthur,**

Bachelor of Arts in Liberal Arts and Sciences, Philosophy

**Benjamin R. Avila,**

Bachelor of Science in Liberal Arts and Sciences, Actuarial  
Science and Statistics

**Steven Scott Beallis,**

Bachelor of Science in Computer Engineering

**Elliana Sigrid Beck,**

Bachelor of Science in Electrical Engineering

**Roshan Raj Betkerur,**

Bachelor of Science in Liberal Arts and Sciences, Psychology,  
December 2023

**Rithika Lalitha Bhattaram,**

Bachelor of Science in Computer Science and Advertising

**Ryan Jeffrey Boone,**

Bachelor of Science in Computer Science and Music

**Taniya Ree Boone,**
